FROM OUR FAMILY TO YOURS
WELCOME

The Out of School Hours Care (OOSHC) service offers centre based care for children aged 5 – 12 years for before and after school during the term, (all day during school holidays). Its purpose is to create a safe and caring environment where children can freely choose amongst the program of activities.

We would like to welcome you to our service by providing this information booklet for your reference. You will find important phone numbers and important policies, and much more.

If there is still anything you are unsure of after reading through our booklet, then just let us know. We as a service regard highly the valuable input our parents make and please remember that it is our role to provide the type of care that best suits the needs of our families in our community that utilise our service.

As a parent you can play an important role in ensuring that the Centre provides the quality of care you require for your family. Parents can become involved by donating items, communicating with staff, spending time at the Centre, joining the management committee and making suggestions for programs and/or activities.

PHILOSOPHY

Studies show the importance of middle childhood for the development of cognitive skills (the process of thought), personality, motivation, and interpersonal relationships. During middle childhood children learn the values of their societies. Thus, the primary developmental task of middle childhood could be called *integration*, both in terms of development within the individual and of the individual within the social context.

Given this, we believe that children need a safe, clean, healthy and stimulating environment in which to grow and develop emotionally, intellectually, physically and socially.

By providing a healthy and safe environment and the tools children in middle childhood (5 -12yrs) need, each child can build a solid foundation that will carry them through a lifetime of growing and learning.

We also believe that children develop and learn by interacting with adults, with each other, and with the world around them. Children also learn valuable lessons by watching and interacting with other children.

We believe that children have a right to enjoyable, fun and interesting experiences that offers a balance of activities in a recreational setting, where children are involved in the planning of what they do.

We value and respect the cultural diversity of our community by providing a service where everyone feels welcome.

We strive to maintain positive communication and relationships between management, staff, children, families, schools and the community.

And as part of our commitment to the children, our staff receive on-going educational enrichment and support.

As carers, we believe that all children have a right to respect, regardless of their abilities. We provide an environment that is safe yet stimulating, and a program that challenges them through creativity, self choice, and learning through play.

Therefore, our program supports the following philosophy about children and their growth:

- ✓ Each child individually learns in different ways, at a different pace, by different approaches and at different ages of maturation.
- ✓ A positive self-concept develops in children who can fulfil their goals, accomplish tasks on their own, and cooperate with others and receive positive feelings from others.
- ✓ Self-disciplined children can direct their efforts towards fulfilment of their goals. Children learn self-discipline through understanding, commitment, and reinforcement.
- ✓ Self-reliance is achieved by allowing children to do as many things for themselves as they are capable of, but keeping in mind new skills.

We advocate open communication with parents, for they ultimately play the most vital role in their child's intellectual development. Parents and carers share a common priority: providing the best that they possibly can for the child. Working together, we believe that optimum development will be obtained.

Tuggerah Before and After School Care and Berkeley Vale Vacation Care serves to reinforce the following goals:

- ✓ to provide nurturing for children
- ✓ to foster a sense of self-worth in each child
- ✓ to recognize the importance of the individuality of each child
- ✓ to encourage autonomy and independence
- ✓ to treat child with respect and understanding
- ✓ to recognize and respect the developmental levels of each child
- ✓ to provide an environment that encourages and motivates on all levels: cognitive, social, emotional, and physical
- ✓ to give the child optimum opportunity to experiment, explore and discover for him/herself as much as possible in the environment
- ✓ to provide understanding and appropriate guidance
- ✓ to provide optimum nutrition for every child

OSHC Quality Assurance

Outside School Hours Care Quality Assurance (OSHCQA) is based on 8 Quality Areas and 30 Principles that summarise and define quality in outside school hour's care. These Quality Areas and Principles guide the service in maintaining and improving the quality of their child care practices.

They also provide the framework by which quality is measured as the service passes through the 5 Steps of OSHCQA.

OSHCQA is a collaborative process involving management and staff working together with families.

OSHCQA is an Australian Government initiative and it is part of the Government's commitment to ensuring that all children in child care have high quality care that best promotes their learning and development.

You can get further information about Quality Assurance by visiting the overseeing bodies, National Childcare Accreditation Council (NCAC), website at www.ncac.gov.au

To meet accreditation we need the assistance of the families who use the services. At accreditation time you will be issued with a survey as will the children. It is vital that these surveys are completed honestly and returned as they are used by the moderators in their decision making. We will also be seeking your feedback on our policies, service provision/programming, philosophy, family handbook etc. Your input into these matters will help us to provide your family with a high quality of care.

It is essential that children are supplied with enough food and drinks for morning tea, lunch and afternoon tea. Remember that your child will use a lot more energy running round having fun than when at school. It is **essential** that they be supplied with plenty of food and drinks. We recommend you provide your child with nutritious snacks such as fruit, cheese & crackers, yoghurt rather than chips, lollies, cake etc. Children are required to bring a refillable drink bottle so that it can be topped up with water during the day.

Children are to wear clothes that are sun safe. Parents are to provide their child with sun protection, hat and extra clothing when required. Closed in shoes are to be worn for foot protection. Excursions

Excursions are organised as part of the Vacation Care weekly programme. The committee reserves the right to cancel any excursion if reasonable attendance is not reached. If a child displays inappropriate behaviour whilst on an excursion, or at the Centre, they will be excluded from excursions in the future. On all out excursions there are no facilities for children to stay behind at the Centre. Age related excursions have been organised to allow children to attend excursions that are more suited to a certain age bracket. Children will not attend excursions outside of the stated age range.

On excursion days children are required to be at the Centre ½ hour prior to the departure time as shown on the programme. We will **NOT** wait for children who have not arrived at the Centre by the time the bus is due to leave. There are no facilities for children to stay behind at the Centre.

Swimming excursions to pools will be organised in warmer months for children aged 9 years or over only. Parents must sign a permission note declaring their child can or cannot swim 25 metres confidently. If a child cannot swim this distance they will be excluded from swimming.

Behaviour

Children attending the Centre are expected to maintain acceptable behaviour standards and abide by the Centre's behaviour guidelines. The staff will in the event of a child not conforming to these standards and rules, advise the parents in the first instances that appropriate disciplinary action may be taken.

Should the problem persist the following procedure will take place:

1. The staff will follow steps according to our STOP-THINK-DO behaviour Management Program.
2. The parent and the child will have a meeting with the Manager to discuss the situation.
3. If the child's behaviour is completely uncontrollable, or the child's behaviour puts other children attending the program at risk, the Manager will report to the management committee, who reserve the right to dismiss the child from the program.

We hope that the parents give us full support in these matters and explain to your children the role of the staff at our Centre, we are responsible for the safety of your children, acceptable behaviour is essential, Our service encourages the reinforcement of all positive behaviour, relevant rewards and encouragement will be given to children who display positive behaviour whilst attending our service.
